## 1. Description of the event

In view of the historical period we are experiencing, we have decided to dedicate the activities of 2021 to the 10th anniversary of the **Istanbul Convention**. A convention that plays a fundamental role in the legal fight against all forms of violence and represents a binding international treaty between 45 states, which, however, has only been ratified by 34 states so far.

The annual event of Anime Senza Voce will be divided into two separate dates and therefore there will be a **special edition 2021 Part 1** in the form of a virtual event with the video projection of the individual works. We use historical buildings and private structures and illuminate the facades with a spectacular video projection of the art objects to be presented from 9:00 p.m. to 12:00 p.m. The multimedia show will open with the respective logo of the community and will be continued with a series of works of art by our national and international artists, all of which are related to the topic but are also suitable for our small audience. The inauguration ceremony will take place again to the most spectacular tones of "Imagine" by John Lennon.

Each video projection lasts 3 hours and is broadcast live by the main social networks. At the beginning or at the end - the details still have to be determined - the artists present, who also involve the entire audience, begin with the flight of white balloons (biodegradable !!), the symbol of our action.

**Part 2 of the special edition 2021** is being organized in the medieval mountain village of Mondaino (RN), an exhibition of works of art that encompasses the entire historical center of the place and, in addition to video projection, has made itself available to an exhibition of our artists in the medieval halls as Organizing also outside in the open air accompanies in different places with music, dance, theater, panel debates and culinary specialties.

The whole place has made itself available for cooperation with our event and the program will be published shortly.

## 2. Conditions of participation

**Video projection (August):** Each artist has the opportunity to participate with photos of **3 of your artworks** that must have the topic "child abuse". The submitted works must be in **vertical** format and have a good resolution, which is essential for video projection.

- Photos of the artwork (PNG, JPG, ODT)
- Single title for all 3 works

**Exhibition (September):** For the exhibition, the format remains as desired but will in any case be at least 1 work on a testimony or theme, in total no more than 6 works.

Anyone who has already participated in previous events can send in the art objects that have already been exhibited at any time and those who have participated in the video projection 2020 can reuse the works that have already been inserted. However, if you want to create a new work in a short time, you will receive one from a victim who was a victim of abuse in his youth / childhood authentic letter on the basis of which it should represent / name a work of art. The artist must also ensure that:
